| --- | --- | --- |
| Java | React | HTML |
| JavaScript | | CSS |

## PROJECTS

**Line Follower Robot**
The Line Follower Robot is an automated vehicle that follows a visual line embedded on the surface. This visual line is a path on which the line-follower robot runs. Generally, it uses a black line on a white surface, or you can adjust it as a white line on a black surface.

**Home Automation System Using Nodemcu**
Home Automation is the automatic control of electronic devices in your home. These devices are connected to the Internet, which allows them to be controlled remotely.
